Transfer Students, Transferring Skills

Continuing Library Information Literacy Among Students From College to University Environments

Andrew D. Beman-Cavallaro, MLIS, MA
Assistant Librarian, Social Sciences
Faculty, Research & Instruction Department
USF Libraries
Tampa, FL
abemanca@usf.edu
Dzień Dobry
Intro to Andrew:

- Bachelor’s: Human Geography (Minors: Anthropology & Int. Affairs) ‘05
- USF: MLIS ‘08
- USF Tampa Campus Library: 2005-2010
- Public Librarian: 2010-2013
- Library Director, Pasco-Hernando State College: 2013-2022
- Faculty, Research & Instruction Department, USF Libraries: Aug. 2022 - present
- Adjunct Faculty, USF MLIS: Fall 2022
- University of Nebraska: M.A. 20th Century U.S. Environmental History ‘23
Information Literacy Instruction

• Partnerships
• Collaborations
• Sustainability
Across different academic library environments:

Colleges and Universities
Public Colleges

• Community College
• Junior College
• State College

• Teaching institutions
• 2 Years
• Smaller/Less Expensive

TRANSFER STUDENTS

• Baccalaureate Degrees

• Started early 20th Century

• Filled in gap between high school and research universities

• Offering trade programs/certifications

Choose Your Bachelor’s Degree

The College offers two bachelors degrees to advance your career and enhance your earning power.

**Bachelor of Applied Science in Supervision and Management**
Students can prepare for career promotions and advancement in a wide range of managerial and administrative positions in various organizational settings with the Bachelor of Applied Science degree in supervision and management (BAS-SM).

The BAS-SM degree program is designed with five concentrations:
- Aviation Administration
- Cybersecurity Management
- Health Care Management
- Organizational Administration
- Public Safety/Public Service

**Bachelor of Science in Nursing**
Gain career advancement opportunities in leadership, management and education with a Bachelor of Science degree in nursing (BSN). The BSN program at PHSC is provided completely online, offering students flexibility with 7.5-week courses, offered year-round part and full-time options with start dates in January and August.

Transfer Programs
Many professions require a bachelor's degree from a four-year college or university. The Associate in Arts (AA) degree at PHSC offers a general education foundation for students who intend to pursue advanced degrees. The courses taken at PHSC can be transferred to any university in Florida's state college or university system.

Complete Your AA Degree to Guarantee Transfer to a Florida University
The courses taken at PHSC can be transferred to any university in Florida's state college or university system. PHSC students often ask if they should finish their Associate in Arts degree before transferring to a University. There are definitely benefits to completing your AA degree at PHSC.

Benefits of obtaining your AA degree before transferring:
• guaranteed acceptance into a Florida University
• a lower GPA requirement (for example, USF GPA requirement for transfer student is 2.0)
• automatic completion of all general education coursework, Gordon Rule writing requirements, and summer attendance requirements
• guaranteed that at least 60 credits will transfer in and apply towards student's baccalaureate degree
• more cost effective/lower tuition (based on 2018 data)
Virtual Information Session
USF, Office of Transfer Student Success is hosting an online session for prospective transfer students.

2023 UPCOMING SESSIONS:
February 8th - March 8th - April 22nd - May 29th
June 1st - July 13th - August 30th - September 13th
October 1st - November 8th - December 13th

Calling Out All Prospective Transfers! Don't Miss These Info Sessions! Looking to transfer to USF to start this Summer or Fall? Come to these sessions to make sure you are on track and get up-to-date information on the process and all deadlines!

FUSE Program

What is FUSE?
FUSE is a transfer partnership between Pasco-Hernando State College (PHSC) and the University of South Florida (USF) that expands the traditional 2+2 agreement. FUSE participants are provided seamless and timely admission to select programs at USF by completing courses identified in the defined degree pathway that will apply toward the USF System Institution Bachelor's degree.

What are the benefits of participating in FUSE?
Participants will benefit from dual academic advising from academic advisors at PHSC and USF, priority registration, guaranteed acceptance into USF bachelor's program, opportunities to attend select events and workshops at USF.

Who is eligible for FUSE?
The FUSE Program is open to first-time-in-college (FTIC) students who plan to matriculate to the University of South Florida in one of the following Bachelor of Science degree programs.

Muma College of Business
- Accounting
- Finance
- Marketing

College of Arts and Sciences
- English-Creative Writing
- Psychology
- English Literary Studies (ADD)

Introduction

Information Literacy

Information literacy is the set of integrated abilities encompassing the reflective discovery of information, the understanding of how information is produced and valued, and the use of information in creating new knowledge and participating ethically in communities of learning.

Concepts

- understanding essential concepts about the information system;
- engaging in creative inquiry and critical reflection to develop questions and to find, evaluate, and manage information through an iterative process;
- creating new knowledge through ethical participation in communities of learning, scholarship, and civic purpose; and
- adopting a strategic view of the interests, biases, and assumptions present in the information system.

Objectives

The Information Literacy Module is a set of web-based instructional activities designed to teach students the following information literacy skills:

1. How to determine the extent of information needed
2. How to access the needed information
3. How to evaluate information and its sources critically

About the ILM

About the ILM

The Information Literacy Module (ILM) will introduce several key concepts which will aid in academic research and personal information seeking. There are six modules or sections, each of which has several subsections.

ENC1101 Students

Coming in 2022

This guide is designed as an open "textbook" to help with the Information Literacy content in Comp I ENC1101 courses. You can use this guide to review before answering the Information Literacy Final questions, as well as referring to it as you work on the final questions. You will need to access the PHSC Library Resources in order to complete the ILM content.

Other Students

You have full access to all of the Information Literacy Content to help you at any time. For specific guidance on using Library Resources (catalog and database searching), check out section 6 Searching as Strategic Exploration, Parts 1 & 2.

HOW TO COMPLETE THE ILM

Modules / Sections

You may use this content at any networked computer on or off campus. It is open to all students and

AI Tools and Resources

Introduction to generative AI concepts and tools

Introduction

This subject guide includes information and suggested resources for beginning research on the topic of Generative Artificial Intelligence. Generative AI is one type of artificial intelligence (AI) system that generates text, images, and other media in response to user prompts. Use the navigation on the left to explore background, key terms, issues, online tools, and recommended reading on Generative AI applications like ChatGPT.

- Check our Workshops for Researchers calendar for sessions on AI & Machine Learning

USF Libraries Workshops for Researchers offers a new schedule of workshops every semester including several incorporating information on AI and machine learning.
